AUTHORITY	FKM	INSERT THIS BULLETIN INTO :-	MANUAL NUMBER 1
DATE OF ISSUE	DEC. 1957		

**NEW TYPE GEAR HOUSING UNIT TO REPLACE X2086 GEAR
HOUSING FOR SERIES 'A' MAGNETOS**

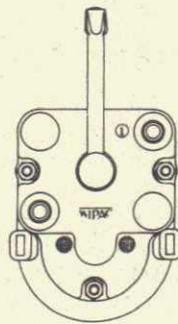

TYPICAL END ELEVATION
(GASKET SHOWN SEPARATE)

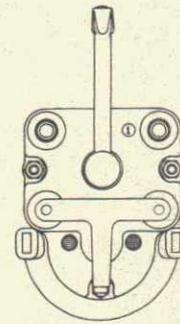

MAGNETO TYPE :- A4.
UNIT No. :- S 0534

(FIG. 1)

MAGNETO TYPE :- A2. (360) TWIN
UNIT No. :- S 0535

(FIG. 2)

MAGNETO TYPE :- AG. (180
540)
UNIT No. :- S 0536

(FIG. 3)

Immediately stocks of X2086 gear housings are exhausted these will be replaced by a gear housing of a new design, which also includes the distributor unit (see illustrations above).

In future, therefore, when placing orders for gear housings state :

1. Appropriate part number
- or 2. Magneto specification number for which it is required
- or 3. Type and makers of the engine to which the Magneto is fitted
- or 4. Whether distributor is required with
 - 4 towers (see fig. 1)
 - 2 towers (see fig. 2)
 - 2 towers with earthing strip (see fig. 3)

Please note distributor rotors (16X477B), and the complete range of distributor covers for the X2086 gear housing, will still be available.
